MOBILE SERVICE & BIT PROGRAM

Myers Diesel Repair offers a variety of Mobile Maintenance and Bit Inspection programs. What this can do for your company is let you do your business and not have to worry about maintenance or DOT guidelines. We have the most sophisticated computer software available to track your maintenance, with a large amount of reports available to you, such as cost per mile and total cost per equipment. For your maintenance needs, we come to your facility, set you up on a maintenance and Bit Inspection program, which is required by the Department of Transportation. We will get your company in compliance and keep you in compliance, we are experts in this field. We also offer free pick up and delivery for any repairs that can't be done on site. We will also set you up on a number of rebate programs with major suppliers such as Donaldson and Chevron Delo, for all your filter and oil needs, which guarantees you the lowest possible price on the best filters and oil possible. We are also one of the largest heavy duty part suppliers in Kern County, with a one stop shop for all your fleet maintenance needs. Overhauls to tires, brakes to alignments and we deliver! Call today and one of our service advisors will set up an appointment to come talk with you and do a free analysis of your fleet 661-615-1200.
